Admin panel dashboard card design usign html and css

🕒 Nov 27, 2017 👤 NiceSnippets 👁 19815

This admin panel dashboard card design created by pure css. in this count box you can display modual card. you can see in this card you can display modual count and name. this design also you can display in counter box. you can easily implement in your project.

We allows to free snippets of admin panel count html , you can download full code of dashboard count by html and css layout. Here in this post i will give you example of bootstrap simple dashboard snippet and you will get simple code of html, css and jquery. In new admin panel dashboard design snippet i give you three tab with html, css and js, you can easily get code of display total product count in html,css layout.
